JACQUELINE SIFFT

Bachelor of Science, Mathematics | Master Student in Cognitive Science and Mathematics

a12511725@unet.univie.ac.at Vienna, Austria 0009-0001-6748-9440

EXPERIENCE

Research Intern: *Perturbation of whole-brain dynamics in silico*

Comenius University Bratislava, Centre for Cognitive Science

September 2026 - Now Bratislava, Slowakia

Investigating whole-brain dynamics in autism spectrum disorder.

Research Intern: *GABA-edited MRS*

Social Cognitive and Affective Neuroscience (SCAN) Unit, University of Vienna

July - August 2026 Vienna, Austria

GABA-edited MRS, preprocessing, basis-set simulation, analysis and quantification.

Research Intern – *TMS & fMRI task design*

High Field MR Center, Center for Medical Physics and Biomedical Engineering, Medical University of Vienna, Austria

March – June 2026 Vienna, Austria

See publication: Identifying Biomarkers of TMS Response in Major Depressive Disorder.

Spring School in Cognitive Modelling

University of Groningen

April 2026 Groningen, Netherlands

Project in neuromorphic intelligence: Implementing distributed frequency encoding on a physical neuromorphic chip — exploring how populations of neurons can represent information beyond individual firing-rate limits.

Student Assistant

Center for Neuropediatrics, University Hospital, Rheinische Friedrich-Wilhelms-Universität Bonn.

2024 – 2025 Bonn, Germany

Administrative support for spinal muscular atrophy patients.

Tutor for Algorithmic Mathematics

University of Bonn

2022 – 2023 Bonn, Germany

Led weekly exercise sessions and graded assignments for an algorithmic mathematics course, covering algorithm design, combinatorics, and computational techniques.

PUBLICATIONS

Sifft, J., Großhagauer, S., & Windischberger, C. (2026). Identifying Biomarkers of TMS Response in Major Depressive Disorder. *Proceedings of the MEi:CogSci Conference, 20.* https://journals.phl.univie.ac.at/meicogsci/article/view/1222

EDUCATION

Master of Science, Mathematics

University of Vienna

October 2026 – now Vienna, Austria

Mathematical modelling in biology (deterministic dynamical systems)

Master of Science, Cognitive Science

University of Vienna, Medical University of Vienna, Comenius University Bratislava

October 2025 – Now Vienna, Austria

fMRI, neuroscience, neuroinformatics, applied machine learning, cognitive philosophy

Bachelor of Science, Mathematics

University of Bonn

2021 – 2025 Bonn, Germany

Thesis: Whitehead Products (Algebraic Topology).

Exchange Semester, Mathematics

York University

2024 Toronto, Canada

GoGlobal Scholarship. Data Science and Psychology, Linear Optimization.

TECHNICAL SKILLS

Programming, data & tools:

Python | SQL | Git | LaTeX | Linux

Neuroimaging & simulation:

Nilearn | Psychopy | FSL-MRS

LANGUAGES

German, native | English, C1 | French, B2

VOLUNTEERING

Equality Committee, Student Council Mathematics

University of Bonn

2021 – 2025 Bonn, Germany

Organization of educational talks on mental health in mathematics and community events for queer mathematicians, computer scientists and physicists.

Global Ambassador

University of Bonn

2024 – 2025 Canada and Germany

Support of outreach events for the GoGlobal Program and trained in intercultural communication

PERSONAL INTERESTS

Rock Climbing | Fantasy Literature | Sketching, Crocheting & Upcycling
